

MURDER WEAPON?

A speed boat propeller can spell fun — or tragedy!

E. E. McGovern of Escambia Search and Rescue Squad, points out that a boat's speed . . . and its careful handling around other boaters or bathers . . . is a key to water safety. According to experts, **THESE** are rules to remember:

Travel at a speed in keeping with the situation

NEVER show off or cut close with a high speed boat

Inspect equipment regularly, maintain it with care

Boat safety pays — for the life you save may be your own.
