"OUR HEARTFELT THANKS"

On Saturday, March 31, a devastating tornado struck our Milton community.

We were unprepared for the disaster.

And, as we all know, Milton folk alone could not have handled the tragic problems that resulted.

The record shows that agencies and individuals from many parts of northwest Florida and south Alabama responded.

They came to our aid so rapidly and did their work with such efficiency that Governor Farris Bryant remarked that it was the best handled relief program he had ever witnessed.

And so it was.

In the premises, we of Santa Rosa County Chamber of Commerce herein on this page now list those who shared our burdens.

Truly there is unity in diversity.

We are grateful. We are appreciative beyond words.

And we know now beyond any—all doubt that friendship and true fellowship and unity are more closely linked together than at any other time in our northwest Florida history.

To these men and women, please extend our thanks for a job well done.

Cordially,
J. Frank Whittle, President
and board of Directors
Santa Rosa County
Chamber of Commerce
